Colonel Miller, of the 61st (Ill.) regt., will, on invitation, address his fellow-citizens, to-night, at the Hall of the House of Representatives, on the present crisis of the country. Turn out and hear the eloquent orator and patriot.

Yesterday the artillery companies encamped in this vicinity went out upon another target-shooting expedition. We learn that the men acquitted themselves admirably, reflecting great credit upon the officers who had drilled them. The guns tried were found satisfactory in all respects.

Townsend Ryan, Lieutenant Colonel of the 34th, has been promoted to the Colonelcy, in place of Aubrey Stearns, resigned, and Lieutenant Colonel Cameron, of the 19th Indiana, now at Washington, will be transferred to the 34th as Lieutenant Colonel, in place of Ryan, promoted.

The 11th and 23d Indiana regiments, now at Paducah, are to receive their pay within a few days for the first time in five months. I. M. Vance, Esq., of this city, left for that place yesterday to bring home such sums of money as the men desire to send.

The 10th Indiana held the post of honor at Somerset, Kentucky, as it did at the battle of Rich Mountain, and its terrible loss proves how gallantly it maintained it. None of its officers were killed, so far as heard from.

About 8,000 troops in Ohio are under marching orders and will be moved toward the present week.

The time may come when the loyal professions of Republicans and Democrats must be tested in the field. We have had our fill of words, give us now the deed—Madison Courier.

Why don't you, a "loyal Republican" shoulder the musket and proceed at once for the scene of war? Why don't you do it? Let us have deeds instead of words we say with you, Go, therefore, go, Mr. "loyal Republican" editor.

Capt. John A. Cottman, of the 19th Indiana, and Quartermaster James S. Drum, who departed with recruits delayed yesterday in order to receive six more men, will leave for their regiment to-night. Both Capt. Cottman and Quartermaster Drum are among the most accomplished, earnest, and faithful Indians being assigned to the volunteer army.

The circulation of the Evansville papers has been interrupted by General Bull along the Ohio river.

War vs. Labor.—It is really almost enough to make one despair of the progress of mankind, to find that something like 4,700,000 of men at the very lowest computation are under arms in Europe and America, either for protection, or as a list of threats, as the case may be. Here is a list: Army of Austria, 728,344; Prussia, 719,000; Russia, 629,000; France, 629,000; Great Britain and India, 534,227; Denmark, Sweden, Spain, Portugal and Italy, 303,497; United States, 500,000; Confederate States, 350,000. Total, 4,620,668. The cost of maintaining, clothing and paying these men, at the low average of \$200 per head, is \$924,133,600 per annum. The labor of \$4,620,668 able-bodied men can not be calculated as producing less than \$700,000,000 per annum, so that virtually between the cost of their maintenance and what they ought to produce, their labor utilized, the loss to the world is \$1,624,633,600 per annum, to say nothing of the valuable lives lost war.

Governor Morton vs. Indiana.—A miserably silly and vindictive circular, dated at Indianapolis on the 1st inst., has found its way to this city, and with those unacquainted with the spirit of it, and with those unacquainted with the spirit of it, it has done much to excite a prejudicial influence against the popular, worthy and patriotic Governor Morton of Indiana. The putative author of the circular signs himself John F. Hahnstock; we are, however, assured that he could not have composed it, but is the chief of a set of others, who have been applying for military promotion rejected by the Governor. This circular is a virulent attack on Governor Morton's official conduct and his private character. We take great pleasure in branding it as a wilful misrepresentation. No man could have acted more faithfully, zealously and impartially than the Governor has done. His assiduity in providing for the comfort of his troops, his State, and in bringing them into the field perfectly armed and equipped, has been the theme of national praise, and the efforts of disappointed placemen to furnish his fair fame fall harmless where he is the best known. We have deemed it our duty to refer to the circular, that we may warn our citizens to attach no credit or importance to its base assertions.—*Lou. Jour.*

Seventy-five men belonging to the 11th Infantry, recruited under Major Gordon, will leave the city to-night for Perryville, Maryland. Many of these gallant and patriotic men are known personally to us. Some of them are printers and they are taken from all professions and trades. It is well they will contribute their share toward doing it.

The sutlers in the regiments around Washington are charging the soldiers from six to fifteen per cent, discount on Treasury notes, an outrage for which the harpies should suffer.

Dulce et decorum est pro patria mori. Roarum ut Catechism et precipitulum.

A LOVE OF A SLAVE.—At the last levee at the White House, Mrs. Lincoln wore a lace shawl, presented to her by A. T. Stewart, of New York, which cost \$2,500. Mr. Stewart has got some pretty fat army contracts for supplying blankets, clothing, &c.

How Ugly SNAKE IS CHAINED AND GIBBETED TO DIRT.—One hundred and twenty condemned Government horses were sold at auction in Washington last week, at an average price of \$25 each, some of them only bringing \$10. These horses cost the Government \$120 each, besides the expense of transportation and keeping since their purchase.

Another lot of miserable cow hags, 324 in number, were condemned in St. Louis on the 15th inst., as unfit for service. They were purchased by a St. Louis merchant, and were to be sent to the army, but he soon discovered that they were so old and so decrepit that they could not be bought cheaper at the west than at Pittsburgh. On arriving at Rock Island they were rejected by the Colonel as unfit for cavalry. After keeping them at a heavy expense for several weeks they were sent to St. Louis under the idea that they may be used for transportation service; but on inspection not one was found even fit for that, and the entire lot was condemned. These horses have been transported on railroads upwards of 500 miles, at the expense of Government, and now will be sold, and probably not realize enough to pay transportation charges.

When we see such wholesale robberies permitted, it is any wonder that the Government is embarrassed for money, or the people will have to be taxed to death to raise the money this year?

It will be a pleasant reflection to the taxpayer that so large portion of his hard earnings, going from him by the tax collector, goes into the pockets of speculators, public plunderers, and Government favorites. A thorough reform in these matters is loudly demanded.—*Fort Wayne Sentinel.*

The 33d Indiana, Col. Gresham, is in two camps, one at New Albany and the other at Indianapolis.

Dr. Gall, the accomplished Surgeon of the 13th Indiana, returned home yesterday. He will remain until his health, which is delicate, is restored.

Col. John C. Walker, of the 35th Indiana, (1st Irish) is President of the Board for the examination of officers. This situation is evidence of the confidence of Gen. Buell in the military qualifications of the gallant Colonel.

The "Morton Rifle," 53d Indiana, Colonel Gresham, is moving about like a ship under full sail. Two companies are in Camp Morton and three companies Camp Noble. By the 1st or 15th of March this star regiment will march for Dixie.

The "Mortimer"—Brown, Stewart & Co. and Merrill & Co. are in receipt of the Atlantic and Harper for February.

Every Democratic paper in the State, except the New Albany Ledger, has hoisted the Democratic flag.

APPROPRIATE DESIGNATION.—The notorious rampant abolitionist, Illinois M. C. Owen Lovejoy, is happily termed by a paper in that State an "ass-trot Congress-man." Unfortunately, he is not the only one entitled to the appellation.

INDIANAPOLIS GRAIN MARKET.—John Carlisle & Son, No. 68 West Washington street, furnish us with the following quotations, the ruling figures yesterday: Wheat, red, 70 to 75c; white, 72 to 75c; corn, 30c; rye, 35c; oats, 25c; 25c; balad hay, \$11 1/2 per ton; loose hay, \$9 1/2 per ton.

Stinson, who shot and severely wounded Dr. Myler, at French Island, Spencer county, in November last, was tried in the Spencer Common Pleas on Friday, the 17th, and sentenced to the penitentiary for nine years. Dr. M. was among the most estimable citizens of Spencer county.

BIRTH DAY OF ROBERT BURNS.—We understand that the Caledonian Society of this city will duly commemorate the 102d anniversary of the birth of Burns, on Friday night next. Everywhere, all over the world, not only by Scotchmen, but by all others, is the memory of Robert Burns revered.

The women of Ireland have a novel mode of taking snuff. They carry it in an article resembling a moderately sized powder-born. When in the house, they spread the snuff on the back of their hands and slowly inhale it; but when riding they thrust the end of the horn into each nostril in turn. Among other eccentric Irish customs is that of having their dishes washed by dogs, who lick them with their tongues.

LE BOY TON, JOURNAL DE MODES AND MONTHLY REPORT OF FASHIONS.—We are in receipt of the February number of this leading magazine of fashion, and which has no rival in its department. Each number contains four elegant steel plates, colored, illustrating the latest styles of female apparel and two patterns of some of the latest fashions. S. T. Taylor & Son, publishers, 407 Broadway, New York. Single copies, 50 cents. One year, monthly, \$5.

METROPOLITAN HALL.—Two fine pieces to-night—the comedy of "Naval Engagements" and the drama of "Grandfather Whitehouse"—in both of which Mr. Bass is said to excel. He is certainly one of the best actors that ever came amongst us, and his stay is limited to this week, most positively, as on Monday the "Invisible Prince" will be produced. Are we to have "Falstaff" again before Mr. Bass leaves? We hope so.

THE EMPIRE SALOON.—This establishment, one of the most famous in the whole State, and frequented more than any other by strangers visiting the city, is offered for sale by the proprietor, Rodrick Beebe, Esq. The Empire is fitted throughout, from garret to cellar, with everything requisite for a first-class saloon, and all Mr. Beebe having numerous other engagements, desires to find the right kind of a purchaser.

NEW PUBLICATIONS.—We have received from T. B. Peterson & Brothers, publishers, Philadel. P. A. Tom, Fiddler's Grand Christmas and New Year's Story for 1863. By Charles Dickens. Price 25 cents. "Hickory Hall; or, the Outcast. By Mrs. Emma D. E. N. Southworth. Price 50 cents. "War and Emancipation. A Thanksgiving Sermon, by Henry Ward Beecher. Price 15 cents. These publications are all for sale by Bowen, Stewart & Co.

Detroit has led the way in retrenchment by cutting down the salaries of all public officers. When will the Republicans of Indianapolis, now in power, imitate the policy?

In this connection we copy the following from the Madison Courier:

MR. EDITOR: I noticed in a Cincinnati paper that the City Council in Cincinnati had reduced their pay to one dollar for each meeting. Would it not be well for our Council to follow such a good example?

The people are for reform all over the State.

BERIAL FEES IN ADVANCE.—A sexton and undertaker, in the town of Hingham, Massachusetts, in an advertisement in the weekly journal of that respectable locality, announced that portion of the public which expect to be buried by him that "hereafter his funeral fees must be paid in advance."

GALLANT LITTLE CRAWFORD.—The Washington correspondent of the New York Times has the following in regard to what Crawford County has done in the present struggle for national existence:

The little county of Crawford, in Southern Indiana, forming part of Gen. J. A. Craven's Congressional District, having only 1,640 acres bearing men it has sent over 1,000 volunteers to the war, and volunteers are still pouring in. What other county in the Union has sent any thing near two thirds of its men to the war? To-day Gen. Craven received a petition from a number of families, citizens of another county, asking the Government to call for "twelve month men," that all the fighting men in the country may enlist and go forth to put down the unlovely rebellion, and "give peace to the land once more."

Crawford has won for herself a national renown. We have no doubt she has sent more men to the war in proportion to her population than any county in the Union. She borders on Kentucky, and she has sent more men to the war than any county in the Union. She has sent more men to the war than any county in the Union. She has sent more men to the war than any county in the Union.

DEATH OF GEORGE P. BUELL.—It is with profound sorrow that we announce the death of George P. Buell, for, we suppose, there is no doubt that he was dropped in the Ohio river, at Cincinnati, last Friday morning, as stated in an article which will be found elsewhere, copied from the Evening Times of Saturday. George had many noble qualities of heart and mind, and was a true patriot, and a true friend to the Union. He was a man of high character, and his death is a great loss to the country. He was a man of high character, and his death is a great loss to the country.

Dr. Buell was a true patriot, and loved his country and its flag with a fervor and enthusiasm that knew no bounds. Last summer he joined our army in Western Virginia, as a volunteer aid to Gen. Dumont, and received a very commendable notice in that officer's report for his bravery and meritorious conduct at the battles of Rich Mountain and Carriek's Ford.—*Ohio Statesman.*

From *The St. Louis Dispatch*, dated at St. Louis, January 22, 1863.

Dr. C. W. BOWEN—Dear Sir: I have used your Blood Purifier for a nervous affection, from which I have suffered much at times. While it is pleasant to the taste, it certainly has a powerful effect upon the system. Please accept my thanks for your kind regards, and believe me, Yours, J. W. T. McMILLIN.

Although the medical men of the country, as a general thing, disapprove of Patent Medicines, yet we do not believe that a respectable Physician could be found in the United States, acquainted with their medical properties, who will not highly approve Dr. J. Bovee Dods' IMPERIAL WINE BITTERS.

In all newly settled places, where there is always a large quantity of decaying timber, from which a potent poison is exhaled, these Bitters should be used every morning before breakfast.
